Student Name _____

Address _____

City _____ State _____ Zip _____

Email _____ Phone _____

The Stationary Engineer Program is 212 hours in length, taught in two 13 week semesters, with 53 class sessions. Course length may be extended to accommodate weather related class cancelations. The course tuition includes textbook, intern log, boiler math guide, water treatment guide, number reference guide, sample exam questions, and pre-printed class notes. For those who qualify, Lifetime Learning offers an unpaid internship with local organizations that allows our students to acquire hands-on boiler operation experience.

- Full course tuition: **\$5,120.00**
- Required deposit to enroll each semester: **\$950.00**
- Student account to be **50% paid at the 16th class session.*** (Appx. 8 weeks from class start date!)
- Student account balance **100% paid at 36th class session.*** (Appx. 18 weeks from class start date!)

. All course sessions are held at the Ford/UAW Hall, 177250 Hummel Rd., Brook Park, OH 44142.

To register for the Stationary Engineer Program, please complete and mail a signed copy of this form with a check or money order deposit made out to Lifetime Learning LLC in the amount of **\$950.00** to:

**Attn: James Poole
Lifetime Learning, LLC
PO Box 40
Berea, OH 44017**

* Lifetime Learning reserves the right to deny access to weekly classes if student's account is in arrears. The entire tuition amount must be paid in-full before a certificate of completion and any applicable licenses can be issued.

The undersigned agrees to abide by the terms and conditions on this form. Failure to comply with the terms and conditions may result in legal action.
